

Quinns Baptist College
Department of Mathematics, Accounting and Business Management:

HOMework EXPECTATIONS

Homework will be checked on a regular basis. To be considered complete, the following things should be included:

- Date
- Title (of lesson)
- Page # and questions
- Time it took to complete outside of class x
- Answers checked and a ✓ or ✗ beside each question

All work must be shown, including:

- ensuring that any variables you use have been defined (using statements of the form “Let x represent ...”)
- stating the equation(s) or formula(e) being used in your solution
- showing all substitutions of numbers for variables
- a clearly identifiable final conclusion

Every question should be attempted. For questions that seem challenging or cannot be completed, you must show at least:

- what information was given
- what strategy/formula/rules you think you should have applied

The top of each page/section of homework should look like: (pages may be folded in half to save space)

Wed., Sept. 4	<u>Exponents</u> – pg. 114 #3, 4, 5, 6ace, 7ace, 8, 11	25 min
---------------	--	--------

Your homework is not marked; it is assessed only for completeness. If you do not complete your homework on a given day:

- you are expected to attend tutoring to complete all tasks assigned
- have a signed note from parents outlining the reason for the delay
- You are therefore expected to attend tutoring without always being asked to do so
- If homework checks reveal that you have regularly not completed your homework (at least twice) and you have not attended tutoring, a parent-teacher interaction will be arranged (letter or interview).
