Dear Parents, Students and Staff

We expect that extra events taking place in the College at present will generate a great sense of enthusiasm and excitement. Events include Artsfest, Bali Week, Sports Carnivals, the College Fete and Open Day and later in the year, Graduation. Our whole school Flashmob practice has generated its own level of excitement as it is not often that 1000 people try to move in a synchronised manner. A special commendation goes especially to Miss Meyer who did an absolutely amazing job coordinating the whole thing.

Our Japanese and French Exchange Students have added an international flavour to the College and we were sad to see them leave. I was proud of the welcome and hospitality extended to them by our staff and students. We wish them all the best for the future.

Over the next few weeks we ask the whole Quinns Baptist College community to support the up and coming calendar events, such as Artsfest, the Athletics Carnivals and the College Fete/Open Day. As the Principal, it makes me proud to see the students of Quinns Baptist College give so selflessly of their time and resources for the benefit of others and, in particular, the disadvantaged children in Bali. On Free Dress Day the students also raised $632.80 for our sponsor child Doreen in Uganda.

We wish Abigail Graham and Amy Coghlan all the best as they represent WA in their respective sports, Cross Country and Soccer, in the Interstate competitions.

James 1: 27
What God the Father considers to be pure and genuine religion is this: to take care of orphans and widows in their suffering and to keep oneself from being corrupted by the world.

Bali Week

Thank you for your support
The Year 12 Human Biology cohort attended Perth Zoo last week. Students had a chance to examine why humans are classified as ‘Primates’ and the evolutionary trends within this order. As part of the ATAR 4 syllabus, they were given the opportunity to gather first hand information on comparative anatomy, physiology and behaviour. All of these characteristics are used to identify the similarities and differences between the Hominidae (Great Ape) family and traits of early Hominins. A very well structured lecture was delivered by zoo staff to consolidate all that was learned in the classroom and students got a chance to examine skulls of various human ancestors and other primates.

Jesus said, “I am the light of the world. Whoever follows me will never walk in darkness, but will have the light of life.” John 8:12
A THOUGHT: "Who do people say that I am?" said Jesus to his Disciples one day. "Some say John the Baptist, others say Elijah and still others a prophet of long ago brought back to life". Jesus replied, "But who do you say that I am?" Peter answered, "You are God’s Messiah." It is easy to dismiss or overlook Jesus in our post-Christian world. But Jesus’ promise remains the same for every searching heart. "I am the way, the truth and the life". John 14:6.

Lots of children these days have regular hassles with friendships, communicating and self-esteem.

The purpose of teaching The Virtues is to develop a culture of character where respect, patience, self-discipline, tolerance and joy for learning are among the virtues children master.

The Virtues Strategies can easily be integrated into how parents interact with their children in the home, by disciplining them and supporting socialisation. It is a positive, holistic program which has been used in many cultures and countries throughout the world to bring out the best in our children.

Being a parent is the most complex and important activity on the planet. Parents are the child’s first and most important educators, yet they receive little or no training in what to do or how to do it. Unfortunately, children don’t come with instruction manuals.

Virtues Parenting Program

This six-week course is designed specifically for families with children over the age of 10. Inclusion is the key, and any adult involved in the parenting process is invited to come along and learn the skills needed to keep your family healthy.

Parents learn how to be leaders and role models in your family. Children learn how to be special and also how to belong. This course is based on the work of George Dabbs and Florence Creighton, authors of Survival Skills for Healthy Families.

Participants learn
• Three basic skills: speak, listen and cooperate
• Six steps to resolving conflict
• Six steps to solving problems
• Three patterns that healthy families use

Each family learn
• Three ways to encourage one another
• How to build on the strengths in their family
• Six rules for successful family meetings
• Society’s role on abuse and neglect
